

Juhyun ‘Simon’ Park

<https://parksimon0808.github.io/>

juhyunp at princeton.edu

Education	Princeton University	<i>Princeton, NJ, USA</i>
	Ph.D. Student in Computer Science (Adviser: Sanjeev Arora)	<i>2025 - Current</i>
	M.S.E. in Computer Science (Adviser: Sanjeev Arora)	<i>2023 - 2025</i>
	A.B. in Mathematics, Cum Laude	<i>2017 - 2023</i>
Interests	LLMs, Reasoning, AI for Math	
Publication	Chung, Cai, Li, Yin, Agarwal, Park , Porto, Ri, Yang, Tang, Dang, Lin, Wang, Chen, Jin, Fowl, Arora, “Goedel-Architect: Streamlining Formal Theorem Proving with Blueprint Generation and Refinement,” Preprint. [link]	
	Park* , Kaur*, and Arora, “How Does RL Post-training Induce Skill Composition? A Case Study on Countdown,” NeurIPS 2026. [link]	
	Park* , Panigrahi*, Cheng*, Yu, Goyal, and Arora, “Generalizing from SIMPLE to HARD Visual Reasoning: Can We Mitigate Modality Imbalance in VLMs?,” ICML 2025. [link]	
	Kaur*, Park* , Arora, and Goyal, “Instruct-SkillMix: A Powerful Pipeline for LLM Instruction Tuning,” ICLR 2025. [link]	
	Shah, Yu, Lyu, Park , Yu, He, Ke, Mozer, Bengio, Arora, and Goyal, “AI-Assisted Generation of Difficult Math Questions,” NeurIPS 2024 Workshop. [link]	
Professional Service	Organizer Princeton Language Intelligence Seminar Lunch Series [link]	
	Lecturer LLM Guest Lectures at Princeton Research Computing [link] , [link]	
	Reviewer NeurIPS (26), ICML (26), ICLR (26)	
Awards	Kwanjeong Educational Foundation Scholarship	<i>Sep 2025 - Current</i>
	Kwanjeong Educational Foundation	
	Gordon Wu Fellowship	<i>Sep 2025 - Current</i>
	Princeton University, Top Incoming Ph.D. Students in Engineering	
	Outstanding Student Teaching Award	<i>May 2023</i>
Teaching Experience	Princeton University Department of Computer Science	
	Shapiro Award for Academic Excellence	<i>Sep 2019</i>
	Princeton University, Top 3% of Class	
	Natural Language Processing Graduate TA	<i>Spring 2025</i>
	Introduction to Machine Learning Head TA	<i>Spring 2024, Fall 2023</i>
Skills	Natural Language Processing Undergraduate TA	<i>Spring 2023</i>
	Introduction to Machine Learning Undergraduate TA	<i>Fall 2022, Spring 2023</i>
Skills	Programming Languages: Fluent in Python, Java / Familiar with C, R, SQL	
	Natural Languages: Native in Korean / Fluent in English, Mandarin Chinese
